[1] Sawed timber, board planks and scantlings, siding, flooring, box shook and railroad ties.

[2] Includes siding, flooring and other dimension (exports only).

[3] Includes hardwood flooring, siding and other dimension.

Note: (1) Because of suspected errors in U.S. data, softwood lumber imports for the first quarter of 1989 are based on Canada's reported exports (source: Statistics Canada and COFI). Imports of other pine lumber for the period July, 1989, through February, 1990, were adjusted based on average per unit value of imports during the first six months of the year. Hence, NFPA-reported softwood lumber imports from official government estimates.
(2) Because of conversion to the Harmonized System of Tariff Nomenclature in 1989, species categories are no longer comparable to previous years.
